Studio Iron one of the premier custom iron shops in the Western United States.

No matter what you need - gates, rails, doors, windows, grills, fence, lighting, art, or anything else, Studio Iron is your one stop shop; we build it all.

Our skilled blacksmiths and artisans forge and fabricate raw steel to make many of the pieces that you see in the finest homes and commercial projects in the United States.

Using old world techniques together with modern technology we are able to produce the most authentic ironwork available.

Whether it is replicating original ironwork built in centuries past or something new and unseen before, we are able to transform your drawings, photographs or ideas into pieces that will exceed your expectations.

Our attention to detail and knowledge of construction sets us apart from other custom iron companies. The size of our shop and number of employees allow us to complete your project with utmost care in the shortest timeline possible.

We build pieces that will be admired for centuries to come

STUDIO IRON

Beam and Timber Hardware

Column and beam hardware is an excellent way to show off the large timber that you have chosen to make a statement in your home. They can be structural to hold the beams and columns together or purely decorative to accent them. We offer many styles or can build whatever is required.

"T" strap shown
With our specialty
Square
headed lags

Column bases
T's and L's for connections
Beam saddles
Truss brackets

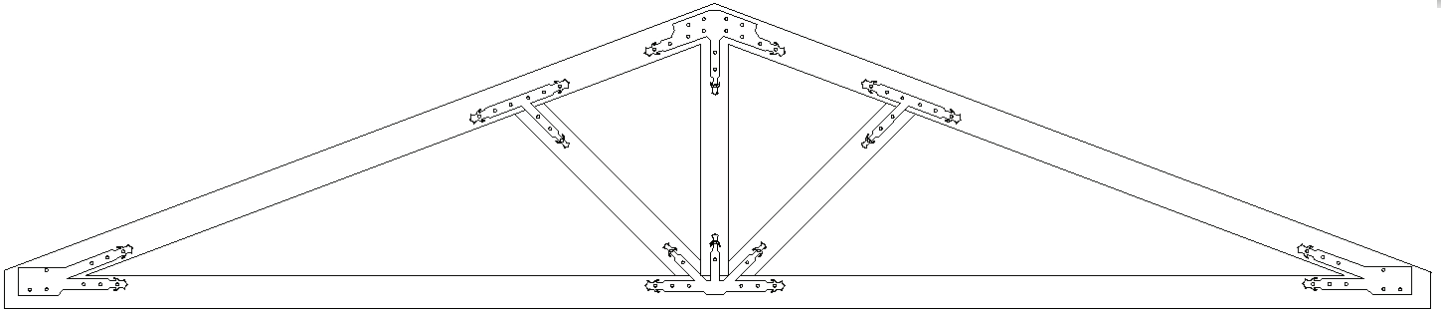

Square head lag bolts
All thread and square nuts
Decorative chisel cut bolt heads

They can be forged and hammered for the "Old World" look or smooth for more contemporary homes.

STUDIO IRON

Beam and Timber Hardware

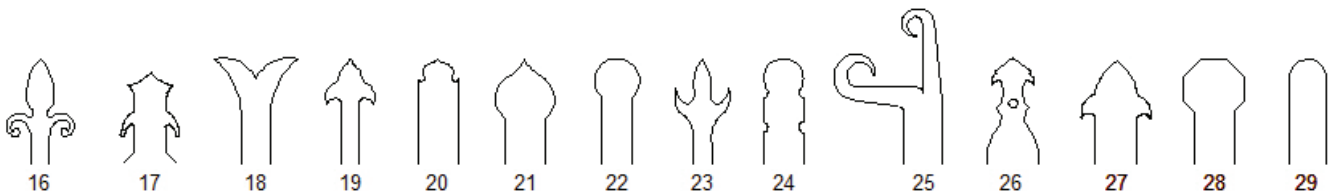

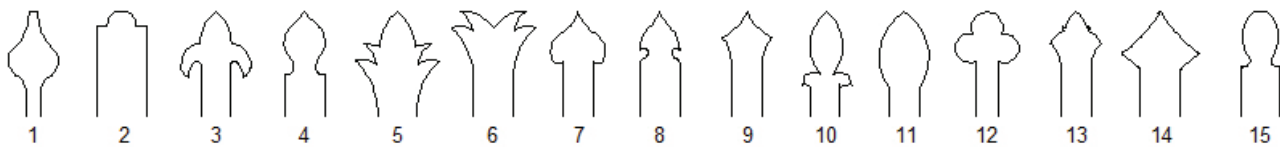

Our hardware is hand hammered and forged to produce a one of a kind piece for your project. Complete your look by adding our "Old World" finish, a three step process that over time ages your iron to look antique or for the modern and contemporary project smooth with clean lines.

Available hardware for your brackets:

Specialty $\frac{3}{4}$ " x 2" square headed lag bolts

All thread available in $\frac{5}{8}$ " or $\frac{3}{4}$ " with square nuts

HVAC Register Grills

AGR1075

AGR1076

AGR1077

AGR1078

AGR1079

AGR1080

Add the finishing touches to your home with one of our uniquely designed grills. Our registers are framed with the grill portion recessed $3/8$ " to be aesthetically pleasing rather than a design cut out of a flat plate and screwed to the wall.

Our registers are provided with an opposed blade damper for adjusting airflow for supply and screened grills with a louver behind, for larger return air grills allowing a visual break from the duckwork.
